## Experienced BIM Documentor

\_Sibling Architecture is a multi-disciplinary, award winning architecture practice. We facilitate a research-based approach to all our projects, operating across a range of scales, disciplines and geographical / digital locations. We hold physical studios in CBD Melbourne and Sydney's Surry Hills but are currently very flexible in terms of place of work and work from home scenarios.

\_We currently have an opportunity for an experienced Revit documentor & detailer with experience within an architectural studio on medium to large scale projects. Our projects include a range of public, cultural, educational and community buildings and experience in this sector would be an advantage; though we also work within the residential and commercial sectors, and across Landscape Architecture, Interior Architecture and Masterplanning.

\_We are a medium sized practice that privileges design philosophy maintains a diverse studio culture, staff retention rate and promotes a healthy work/life balance. We offer career progression, ongoing professional development and a collaborative workshop style office.

### KEY RESPONSIBILITIES

- Revit documentation on medium - large scale projects
